## Participants' Feedback/Testimonials

Here are testimonials from participants and community members:

"Being a part of Favored Generation reminded me that I'm not too broken to be used by God. This community speaks life, purpose, and destiny into people, and I've learned to embrace who I am and what I'm called to do. I've never felt more confident in my identity in Christ."

"As a creative and a young adult navigating purpose, Favored Generation gave me the space to grow spiritually while staying true to how God wired me. There's room for everyone, artists, thinkers, leaders, and dreamers here. With the little I bring to the table, I finally feel seen and valued for who I am."

"Favored Generation saw value in my gift when I didn't. As a media person, I've been invited to create visuals for events, and it's been amazing to use my craft for kingdom impact. There's a culture of excellence here that pushes you higher, but also a spirit of grace that keeps you grounded. It's the most empowering space I've been a part of."

"Favored Generation has developed me as a leader, I've learned to lead from a place of authenticity, love, and care. The mentorship, community, and opportunities to serve have helped me grow in confidence and character. This is where I found purpose."

"I used to feel like I had to choose between being a creative and being a Christian. But serving with Favored Generation has created space for both, where my creativity could glorify God. I've met other entrepreneurs, artists, and designers who are chasing purpose, not just profit. Their support gave me the courage to launch my brand, knowing I wasn't doing it alone."

"School was overwhelming! I was questioning my faith, my future, and even myself. But everything changed when I started coming to Favored Generation events and watching past event videos. I found other students who were real about their struggles but still chasing after God. The worship, the teaching, and the convos after events have helped me stay grounded and grow spiritually while figuring out who I am."

"I didn't realize how much I was carrying until I heard a story during one of the teachings at BOW. I spoke with one of the leaders of Favored Generation, who was so open about their struggles in the past, the support they got and the importance of community, and that gave me the courage to be honest about mine. Through the teaching, mentorship, and community prayer, I've experienced deep healing in my soul."
